Rail & Transportation
Roads & Highways
Bridges
Environment
Residential
Cultural
Hospitality
Tunnels
Sports
Commercial & Mixed Use
Maritime

“Direct connections to other Newforma shops strengthen collaboration, which is vital given the pace of design iteration on BIM projects.”

Challenges?
• Sharing and coordinating 3D models was time-consuming and difficult.

Results?
• No one wastes time uploading and downloading models and other large files.
• Everyone is always working from the most current information.
• Audit trails provide transparency and accountability.
