Mission Critical	

“Newforma has now become one of our primary enterprise software tools.”

Seoul International Financial Center, Seoul, South Korea

Challenges?

- Make project data centrally accessible and discoverable across the company without changing or disrupting existing processes.
- Easily share large files with project partners outside the company.

Results?

- Project files and email can now be located quickly.
- Archiving is easy.
- It's easy to produce files and emails needed for litigation.
- File sharing is easy and automatically captures audit records.
- Collaboration with architects using Newforma software is direct and seamless using Newforma-to-Newforma connections.
